advanced visceral manipulation **ABDOMEN I**

Over 40 years ago Jean-Pierre Barral along with Paul Mercier started developing a new modality of manual therapy called VISCERAL MANIPULATION. They were able to give new dimensions to an approach which already had its roots in the work of the pioneers of osteopathy, in the practices of early bonesetters and in methods that healers of various cultures had developed over a long period of time.

Barral has published several VISCERAL MANIPULATION books and now expands on these basic concepts and original techniques. This DVD introduces new ways to work with organs.

Barral introduces each technique with genuine anatomical drawings. The anatomical introductions and conceptual explanations are followed by a practical demonstration of each treatment.

An innovative approach is presented theoretically and practically covering the following aspects of each organ:

- the ligaments and the related connective tissues
- the cardiovascular supply
- the connection with the nervous system and the brain
- the viscoelasticity of the organ
- the related emotional dimensions

Peter Schwind and Christoph Sommer - the producers of this DVD - have been studying Jean-Pierre Barral's concepts and techniques for more than 20 years. They are the founders of the MUNICH GROUP for Interdisciplinary Manual Treatment (www.munich-group.com), dedicated to teach Jean-Pierre Barral's concepts and related manual modalities.

Peter and Christoph are instructors at the MUNICH-GROUP and at the Barral Institute (www.barralinstitute.com) and work in private practice in Munich (Germany).
