visceral manipulation - neuroendocrine effects: **LIVER, PANCREAS AND INTESTINE**

More than 40 years ago Jean-Pierre Barral and Paul Mercier started a new modality of manual therapy, called VISCERAL MANIPULATION. They were able to give new dimensions to an approach which already had its roots in the work of the pioneers of osteopathy, in the practices of early bonesetters and in methods that healers of various cultures had developed over a long period of time. Barral has published several VISCERAL, NEURAL and VASCULAR MANIPULATION books and now expands on these concepts and original techniques. This DVD introduces new ways of how to work with organs so that these interventions also effect the neuroendocrine regulation of the digestive system.

Barral introduces each technique with genuine anatomical drawings. The anatomical introductions and conceptual explanations are followed by a practical demonstration of each treatment.

An innovative approach is presented in theory and practice. The three DVDs describe the neuroendocrine effects of Visceral Manipulation in relation to the following organs and related anatomical structures:

- the peritoneum and the greater omentum
- the diaphragm
- the stomach, duodenum, liver, gallbladder and pancreas
- the small intestine and colon
- the osteopathic approach to high blood pressure via manual treatment of the vagus nerve

Peter Schwind and Christoph Sommer - the producers of this DVD - have been studying Jean-Pierre Barral's concepts and techniques for more than 25 years. They are the founders of the MUNICH GROUP for Interdisciplinary Manual Treatment (www.munich-group.com), dedicated to teach Jean-Pierre Barral's concepts and related manual modalities. Peter and Christoph are instructors at the MUNICH-GROUP and at the Barral Institute (www.barralinstitute.com) and work in private practice in Munich (Germany).

Table of contents

visceral manipulation - neuroendocrine effects: **LIVER, PANCREAS AND INTESTINE**

GENERALITIES:

Theory: Neuroendocrine effects of Visceral Manipulation

Theory & Demo: Contraindications

1. Duodenum

1.1 Theory: Embryological development

1.2 Theory & Demo: Detailed landmarks

THIEME: page 166f

NETTER: plate 270f

1.3 Theory: Detailed landmarks and connections

THIEME: page 166f, 176f

NETTER: plate 270f, 280

1.4 Landmarks: Sphincter of Oddi and DJ - Junction

THIEME: page 166

NETTER: plate 262

1.5 Theory & Demo: Hepato-duodenal manipulation

THIEME: page 165, 177

NETTER: plate 270, 278

1.6 Theory and Demo: Papilla major and minor

THIEME: page 166, 176

NETTER: plate 271, 280

1.7 Theory & Demo: Sphincter of Oddi

THIEME: page 176

NETTER: plate 280

1.8 Theory & Demo: Superior mesenteric vessels-effects on the duodenum and pancreas

THIEME: page 189

NETTER: plate 284

1.9 Theory & Demo: Spleen & splenic artery

THIEME: page 189, 190

NETTER: plate 283, 284, 288

1.10 Theory & Demo: Muscle of Treitz, duodenal fossa and recessus

THIEME: page 166f

NETTER: plate 262

1.11 Theory: Duodenum: Neuroendocrine effects

2. Liver, Gallbladder and Pancreas

2.1 Theory: Embryological development of liver and pancreas

2.2 Theory & Demo: Gallbladder

THIEME: page 176, 189

NETTER: plate 242, 284

2.3 Theory & Demo: Liver and the portal vein system

THIEME: page 193, 197

NETTER: plate 284, 292

2.5 Theory: Liver - various segmentations

THIEME: page 174f

NETTER: plate 277f

2.6 Theory & Demo: Hepatic lymph circulation, Adson Wright test on radial artery

THIEME: page 84f, 174

NETTER: plate 232, 277

2.7 Theory: Liver - inferior part; Hilum and hepatic lymph circulation

THIEME: page 174, 204

NETTER: plate 277

2.8 Theory & Demo: Pancreas and duodenum:

Neuroendocrine effects

THIEME: page 178f

NETTER: plate 281

3. Small intestine

3.1 Theory: Embryological development

3.2 Theory: Small intestine

THIEME: page 168

NETTER: plate 261

3.3 Theory: Root of mesentery-vascular, lymphatic and neural importance

THIEME: page 163, 166f

NETTER: plate 262, 266

3.4 Root of mesentery

THIEME: page 163, 166f

NETTER: plate 262, 266

Final Words:

Summary of neuroendocrine effects

Notice

Neither the Producer of this DVD nor its Authors and Performer assume any responsibility for any loss and / or injury and / or damage to persons or property arising out of or related to any use of the material contained in this DVD. It is the responsibility of the treating practitioner or anybody else using the DVD, to determine the best treatment and method of application, relying on independent expertise and knowledge of the patient or client. The Producer Peter Schwind and Christoph Sommer - the producers of this DVD - have been studying Jean-Pierre Barral's concepts and techniques for more than 20 years. They are the founders of the MUNICH GROUP for Interdisciplinary Manual Treatment (www.munich-group.com), dedicated to teach Jean-Pierre Barral's concepts and related manual modalities. Peter and Christoph are instructors at the MUNICH-GROUP and at the Barral Institute (www.barralinstitute.com) and work in private practice in Munich (Germany).
